
The New Jersey 4-H Shooting Sports Program

The National 4-H Shooting Sports Program and Curriculum was developed, drafted and tested by the National 4-H Shooting Sports Committee over a period of years and has been offered to states since the mid 1980's. The curriculum is scrutinized continually and revisions made as appropriate. Writers of the curriculum included National Rifle Association Instructors and training counselors, hunter education instructors, National Bow Hunter Education Instructors, National Archery Association instructors, National Muzzle loading Rifle Association Instructor, and Extension Specialists.

The program relies on National and State 4-H trained and certified instructors to conduct classes and programs in the various disciplines (Archery, Muzzle Loading, Hunting & Wildlife, Rifle, Shotgun, and Program Coordinators) using the National 4-H Shooting Sports Curriculum. Shooting Sports has the potential of being a high liability activity. Therefore, the program requires 4-H trained and certified instructors to adhere to the safety rules and regulations as dictated by the program to decrease the liability of such an educational experience.

YOUTH DEVELOPMENT

Youth development is the primary goal of the 4-H Shooting Sports Program. 4-H shooting sports provide an outstanding way of providing human growth and development in the life skills identified by the National 4-H Program.

We strive to teach safe and responsible use of firearms and archery equipment at home, on the shooting range, or in the field, including sound decision making, self discipline, and concentration.
